

# Hold the Cables Hug the Rung<sup>®</sup>

Talon<sup>®</sup> cable cleats are a cable management product used to secure cables when installed at intervals along the length of the cable. They are typically used for support, restraint, strain relief and short circuit protection by containing the cables without damage.

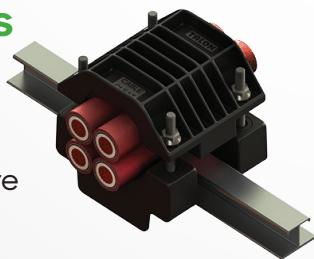

## Talon Cable Cleats:

- **Made in the USA** and complies with BAA requirements
- **Fastest installation time** and related **labor savings** with cable tray rung-hugging technology
- **Longest service** life with industry leading UV protection
- **Strongest cleat** on the market for ultimate short-circuit protection
- **Rigorous 3rd party** tested in accordance with ASTM B117, IEC 60695, IEC 61914, ISO 4892-2, UL 94, and UL 2239.

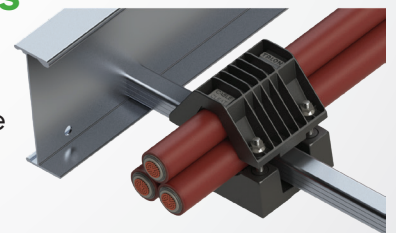

## T1 Cable Cleats

Optimized for single cables but may also be used to secure bundles of two or more

## T3 Cable Cleats

Optimized for two or three cables but may also be used to secure a single cable.
